- Darrell and Dave are working on new groomer. Darrell went to Calgary Canada. Darrell stated that they took the machine out in the middle of a marsh and sat on top of it and that it was a really impressive machine.
- There was a question about tracks. Grouser bars, rubber or steel? Drive left hand and operate blade with right. Want machine to drive with right hand and operate blade with left. Dave went over specs of machine. Price will be \$112,100 plus freight. Now price is \$108,800 and they are now paying freight. Airline tickets will now be reimbursed by All Track. Deduct \$900 for airline tickets. There was a question about the drag. It is 8x18 feet and costs \$14,000 from Arrowhead.
